Windsor

Cleverly designed to suit sites that slope towards the front, the Windsor provides the perfect combination of separation and open plan living with simplicity and space at its heart.

The main entry level of the home holds a master suite with an ensuite and walk in robe before coming to a central lounge or study nook and the rear open plan living space. The kitchen, family and dining space wraps around the alfresco balcony that provides a flowing entertaining space to share with family and friends.

A central staircase takes you down to the rear of the home where additional bedrooms, family bathroom, laundry and activity space provides an ideal space for teenagers to retreat and access to the backyard.
